

## Miss You

## Thieves Like Us

Oh and you won't let me dance with you  
And you won't let me dance  
You dance the night by  
See no sign  
You're dancing it right on the fence

Your Friday night gets hard at times  
You only come once a year

Well they set you here on the weekend  
and dress you up open wide  
Well they sent you here on the darkened  
and they dressed you up open wide  
They ance and standing away from you,  
oh you did it up all the time  
Surely standing away from you  
oh you lit up all the time

I miss you now  
I miss you now, right now  
Won't you come 'round  
We'll work it out somehow

Make a wish  
Make it happen  
Count to three  
Make it happen  
all your dreams  
all your plans  
all your lifetime  
Make it now

Well you rock me in my dreams now  
while you sounding off all alone  
well you set it off in my dreams now  
well you set me off all alone

You dance at night  
but I can see no signs  
you're dancing the night on the fence  
Your Friday night gets hard at times  
still dancing it right on the fence

Well they set you here on the weekend  
and dress you up open wide  
Well they sent you here on the darkened  
and they dressed you up open wide  
They dance and standing away from you,  
oh you did it up all the time  
Surely standing away from you  
oh you lit up all the time

I miss you now  
I miss you now right now  
Won't you come 'round  
We'll work it out somehow

Make a wish  
Make it happen  
Count to three  
Make it happen  
all your dreams  
all your plans  
all your lifetime  
make it now

Make a wish  
and make it now

I miss you now  
I miss you now right now  
Won't you come 'round  
We'll work it out somehow
