

Thru With Love

Thomas Anders

In my life, I never thought
That one day, I'd be alone
Now I find, the love I built
To last has fallen down
Please let me touch you one more time
I wanna keep this filling in my mind

Thru with love, I'm thru with love
I'm always left to cry, babe
Thru with love, I've had enough
I never want to say goodbye again like this
I couldn't stand the pain
Thru with love, it's over now
I'll never fall in love again

Yet so near, I really thought
That this time, this time I had it made
Now it's clear, the perfect kiss
We shared, just had to break
Oh just to prove the thrill was true
I'm gonna make this sacrifice for you

Thru with love, I'm thru with love
I'm always left to cry, babe
Thru with love, I've had enough
I never want to say goodbye again like this
I couldn't stand the pain
Thru with love, it's over now
I'll never fall in love again

Yet so near, I really thought
That this time, this time I had it made
Now it's clear, the perfect kiss
We shared, just had to break
Oh just to prove the thrill was true
I'm gonna make this sacrifice for you
