

When All Hope Is Gone

Tiago Iorc

Wait a minute, step back
Get a little closer
We're just a little off track
trying to get it all done
I think I'll pour another glass
Im feeling kind of sober
Were just a little off track
trying to get it all done

On it goes
And still nobody knows
What we're all fighting for
Soon when all hope is gone
We'll find love

Wait a minute, step back
See what's going over
People watching our backs
protect us from each other
It's just another way
of sitting back
and blaming others
We're just
a little off track
trying to get it all done

On it goes
And still nobody knows
What we're all fighting for
Soon when all hope is gone
We'll find love
