

The Reason Is You

Tiffany Alvord

I don't need a reason to smile as I walk down the street
I don't need a reason for my heart, to feel complete
Not another question, I tell you no one could take your place
I guess that maybe the answer is written all over my face

Cause I've been, I've been, noticing you, noticing me, as I notice you
I think it's kinda funny how I like you like I do
Baby I am crazy for you
So hot sparks are flying, this is love in wintertime
Met you on fifth avenue
Never talked around at you
So hot sparks are flying, this is love in wintertime
Met you on fifth avenue
I love to smile
And the reason is you

I don't need a reason to dance under the stars
I don't need a reason to blast a song in a car
Not another question of why I glow when I see you
I guess that maybe the answer is that I just wanna be with you
Cause I've been, I've been, noticing you, noticing me, as I notice you
I think it's kinda funny how I like you like I do
Baby I am crazy for you
So hot sparks are flying, this is love in wintertime
Met you on fifth avenue
Never talked around at you
So hot sparks are flying, this is love in wintertime
Met you on fifth avenue
I love to smile
And the reason is you, oooh

You make me feel like nothing in this world could ever bring me down
You make me feel so special so sweet so perfect as we walk through town
There is no apparent reason why I feel the way I do
But maybe then again the reason, is you

Cause I've been, I've been, noticing you, noticing me, as I notice you
I think it's kinda funny how I like you like I do
Baby I am crazy for you

Cause I've been, I've been, noticing you, noticing me, as I notice you
I think it's kinda funny how I like you like I do
Baby I am crazy for you
So hot sparks are flying, this is love in wintertime
Met you on fifth avenue
Never talked around at you
So hot sparks are flying, this is love in wintertime
Met you on fifth avenue
I love to smile
And the reason is you, the reason is you, the reason is you
The reason is you, the reason is you
