

# Feels Like Love

Tiffany Darwish

Just sittin' by myself  
watching the world go by  
Sippin' at my coffee and  
soakin up some sunshine

Out of the corner of my eye  
I caught you smilin'  
How could I know you'd change my life  
without even trying...

I just look into your eyes  
and I'm not afraid to fall  
No, I'm not afraid of anything at all!

Couldn't have come along at a better time  
Yes this feels like love  
Yes this feels like love  
I look into your eyes and i realise...  
Yes, this feels like love  
Yes, this feels like love

If I wake up in the night  
feeling a little scared  
Put your arms around me tight  
and let me know you're there

I've never felt this way before  
it's so exciting!  
Baby, you're love is a divine thing!

Couldn't have come along at a better time...

Sometimes when I'm with you  
I can't seem to catch my breath  
I wanna be so sure  
afraid to share what I have left

I just look into your eyes  
and I'm not afraid to fall  
No, I'm not afraid of anything at all!

Couldn't have come along at a better time  
Yes, this feels like love  
Yes, this feels like love...  
I look into your eyes and i realise  
Yes, this feels like love  
Yes, this feels like love

I realise...  
It feels like love  
Feels like love, whoa oh...  
I realise...

Feels like love  
Feels like love...
