

# Mind Candy

Tiffany Darwish

Well, I met you the other night  
Oh, I saw your pretty lights in the sky  
I was layin' on my back just looking up  
You know the clouds cleared away...

So toss me in the stars  
when I die  
I think the dreamers know why

That the day time sky just don't  
give them the high  
that you do...

So toss me in the stars  
when I die...  
I think the dreamers know why

Well, you're mind candy  
Oh you're eye candy

Here I lye unaffected by the cold  
so keep telling me stories that have never been told  
I feel the night surround  
As your words rain down and take control  
As your words rain down and take control

Well, the day time sky is just a road that winds  
back to you  
And day don't show me no love  
and when the sun goes down, I look above

For a light in your window  
It shines so bright  
But not in city  
Oh, not in the city  
but on the country side...

So toss me in the stars  
when I die  
I think the dreamers know why

You're mind candy

Here I lye unaffected by the cold  
so keep tellin me stories that have never been told  
I feel the night surround  
As your words rain down and take control  
As your words rain down and take control
