

Winding Road

Tiffany Darwish

I've been down many roads
Sometimes life can be unkind
I didn't wonder where I'd go
Didn't know what I might find
What you got was not expected
And when you feel that time
is running out on you

The winding road that takes me home
I'm going there someday I know
The winding road that
takes me home to you
Is there beneath the shadows
The winding road
Memories of the love we had
Never fade away
Tears of joy for the promises
That will come again someday
When you walked out it was unexpected
I'm trying to find my way back to you

The winding road
The truth can leave you breathless
And the truth can set you free
I've got all these questions
Living inside of me, inside of me

The winding road
The winding road
The winding road
