

Another Season

Tinashe

The type of affection that keeps me runnin' runnin'
My elixir of life if you keep it comin' comin' right now

He was blind, I was bored
Maybe silly, it was cold
Stuck inside... I'm feelin' old today
No reply when I call
I know you hear me through the wall
And when we're high tears dry and blow away

Rewind like half a year, winter heat
Synchronize to my heartbeat
And I swear never down this road we'd meet
Oh
Please don't ash it in my ride
I bought the keys and you can take it outside
Just appease me for once in your life

Baby please, I don't want a damn fight
I said
Please don't ash it in my ride
I bought the keys and you can take it outside
Just appease me for once in your life

Baby please, I don't want a damn fight
Must be the weather
Nothing last forever
And if something to fight for is what you're needing
Remember this is just another season
Just another season
Gimme some, gimme some precious lovin', lovin'
The type of affection that keeps me runnin' runnin'

My elixir of life you keep it comin' comin' right now
Fading fast, I need help
I'll never ask you but I need your help
More than ever... though I resists,
Deep down in my heart all I wanted was a kiss, boy
And I'm so tired - all I wanted was some

Even if I don't deserve it, oh
Please don't ash it in my ride
I bought the keys and you can take it outside
Just appease me for once in your life

Baby please, I don't want a damn fight
I said
Please don't ash it in my ride
I bought the keys and you can take it outside
Just appease me for once in your life
Oh I don't wanna fight no

Must be the weather
Nothing lasts forever
And if something to fight for is what you're needing
Remember this is just another season
Just another season

Gimme some, gimme some precious lovin', lovin'

The type of affection that keeps me runnin' runnin'

My elixir of life if you keep it comin' comin' right now
