## Wrong Crowd

Tom Odell

And my mother is standing beside me As I'm packing my bags in the car She says, "Please, boy, no more fighting Oh, it's only gonna do you harm"

But I can't help it, I don't know how I guess I'll always be hanging around With the wrong crowd I can't help it, I don't know how I guess I'll always be hanging around With the wrong crowd

And my brother is standing behind me As I'm slowly going out my head He says, "You know those people don't like me Why'd you wanna be one of them?"

But I can't help it, I don't know how I guess I'll always be hanging around With the wrong crowd I can't help it, I don't know how I guess I'll always be hanging around With the wrong crowd

Oooh, I wish I could find somebody That my mother would like Oooh, I wish I can find somebody That could treat me right

But I can't help it, I don't know how I guess I'll always be hanging around With the wrong crowd I can't help it, I don't know how I guess I'll always be hanging around With the wrong crowd Singing, I can't help it, I don't know how I guess I'll always be hanging around With the wrong crowd

Thinking, I can't help it, I don't know how I guess I'll always be hanging around With the wrong crowd I can't help it, I don't know how I guess I'll always be hanging around With the wrong crowd Thinking, I can't help it, I don't know how I guess I'll always be hanging around With the wrong crowd
