

# If I Pass This Way Again

Tom Paxton

I'm so glad to see you  
Glad that I was passing through  
Makes me smile to think of how  
I just ran into you  
Makes me happy every time  
I make another friend  
And I'll be round to see you  
If I pass this way again  
If I pass this way again  
If I pass this way again  
I will surely come and see you  
If I pass this way again  
If I pass this way again  
If I pass this way again  
I will surely come and see you  
If I pass this way again  
Sure, the road gets dusty  
Sure my feet get tired and sore  
Sometimes I get to wondering  
What I keep on wandering for  
Then I meet somebody  
Who will be there till the end  
And I'll be round to see you  
If I pass this way again  
If I pass this way again (pass this way...)  
If I pass this way again (...again)  
I will surely come and see you (come and see you)  
If I pass this way again  
If I pass this way again (pass this way...)  
If I pass this way again (...again)  
I will surely come and see you (come and see you)  
If I pass this way again  
Oh Lord, you know the road gets rough and rocky  
Lord, you left some mighty hills to climb  
Folks of flesh and bone cannot climb these hills alone  
We're gonna need each other every time  
Got no way of knowing what  
Is waiting round the bend  
If the road be straight and long  
Or if it has no end  
Still we have each other  
And on that we can depend  
And I'll be round to see you  
If I pass this way again  
If I pass this way again (pass this way...)  
If I pass this way again (...again)  
I will surely come and see you (come and see you)  
If I pass this way again  
If I pass this way again (pass this way...)  
If I pass this way again (...again)  
I will surely come and see you (come and see you)  
If I pass this way again  
Oh Lord, you know the road gets rough and rocky  
Lord, you left some mighty hills to climb  
Folks of flesh and bone cannot climb these hills alone  
We're gonna need each other every time  
Got no way of knowing what

Is waiting round the bend  
If the road be straight and long  
Or if it has no end  
Still we have each other  
And on that we can depend  
And I'll be round to see you  
If I pass this way again  
If I pass this way again (pass this way...)  
If I pass this way again (...again)  
I will surely come and see you (come and see you)  
If I pass this way again  
If I pass this way again (pass this way...)  
If I pass this way again (...again)  
I will surely come and see you (come and see you)  
If I pass this way again
