

Don't Pull Me Over

Tom Petty

Don't pull me over, mister policeman
Don't pull me over, mister policeman
And what I've got to do, won't hurt anyone
And where I've got to go, won't hurt anyone

Don't pull me over
I've got mouths to feed
Don't pull me over
They depend on me
What I've got to say, won't hurt anyone
What I've got to do, won't hurt anyone

When the moonlight turns to blue light
Makes me so afraid
Let me go
Leave me 'lone
'Til I'm home and safe

Don't pull me over, let me pass on by
Don't pull me over, should be legalized
Don't pull me over, mister policeman
Don't pull me over, mister policeman

Please, please, mister policeman
Please, please, mister policeman
