Don't Pull Me Over

Don't pull me over, mister policeman Don't pull me over, mister policeman And what I've got to do, won't hurt anyone And where I've got to go, won't hurt anyone

Don't pull me over I've got mouths to feed Don't pull me over They depend on me What I've got to say, won't hurt anyone What I've got to do, won't hurt anyone

When the moonlight turns to blue light Makes me so afraid Let me go Leave me 'lone 'Til I'm home and safe

Don't pull me over, let me pass on by Don't pull me over, should be legalized Don't pull me over, mister policeman Don't pull me over, mister policeman

Please, please, mister policeman Please, please, mister policeman

Tom Petty
