

# We Stand a Chance

Tom Petty

Stand back from me honey  
Because I don't know what I might do next  
No I'm surprised by this, frightened by this  
Nothin' ever got me so out of my head, baby

[Chorus:]

We stand a chance  
We stand a chance  
Yeah, and I could be wrong, but you never know  
We could stand the chance of a real love

Oh, God knows I love you  
God knows I do  
Baby will you let me just prove it to you  
Come here to me baby, come here to me now  
I wanna talk to you, talk to you  
And tell you somehow, that

[Chorus]

I'm so moved, I'm so changed  
My whole world is a fountain of flame

[Chorus]
