

Lookin' at Me

Toni Braxton

You got me looking at you and now you're looking at me
You got me looking at you and now you're looking at me

My dress so short it's border line killa
I don't wanna hurt you
I'm whole a lot of thrilla
Looking at me say something
Have we met somewhere before
Playing these games I'm not about to do it
Cause I can have him and you
You knew it
I'm a grown woman I could
I got my house payed up
And I'm all way to the end

And when you see me in a dress and good shoes
People looking at a moody lipsa
Cause I'm tired of waiting I'm fading all I'm saying is

You got me looking at you and now you're looking at me (I think it's time yo
u be about it)
You got me looking at you and now you're looking at me (You wants to come an
d see about it)

Cause I'm alone and high heels on dressed in gabbana let's go
Now don't you wanna know don't you wanna know
I think I think it's time you be about it

Me in the back of the end because I don't need everybody looking at us
All on me but I'ma let you see our little tricks in the bag
You wanna stare in my eyes get some time
You about to lose it on waiting all night
Grown woman I'm good
Be a man come and catch me like you should

Cause when you see me in a dress and good shoes
People looking at a moody lipsa
Cause I'm tired of waiting I'm fading all I'm saying is

You got me looking at you and now you're looking at me (I think it's time yo
u be about it)
You got me looking at you and now you're looking at me (You wants to come an
d see about it)

Cause I'm alone and high heels on dressed in gabbana let's go
Now don't you wanna know don't you wanna know
I think I think it's time you be about it

Full grown woman get it if you want me
Get your money baby I can spend it on me [x4]

You got me looking at you and now you're looking at me (You wants to come an
