

# Never Too Late

Tony Bennett

Its never too late  
For rainbows to shine  
For whispering violins  
And bubbles in the wine

Its never too late  
To ring like a bell  
To steal away somewhere  
And catch a carousel

The summer is green  
The autumn is gold  
So no matter when love comes  
Its heavenly to hold

Let your heart stay young and strong  
Just one note can start a song  
So don't worry 'bout how long  
You've had to wait

Its never too late  
Its never too late

The summer is green  
The autumn is gold  
So no matter when love comes  
Its heavenly to hold

Let your heart stay young and strong  
Just one note can start a song  
So don't worry 'bout how long  
You've had to wait

Its never too late  
Its never too late
