

# Celestial

Tori Kelly

Oh, what a marvelous sight  
Oceans turn to gold right before my eyes  
That vibrant color I crave  
Wish I could taste  
Take me there, take me there  
I'll dive in the sky, oh the water's alive  
I'll float down to soak in the stars  
Swim away from the night, I am swallowed by light  
Suddenly love doesn't seem very far

Here in this castle that sits on a cloud  
Something consumes this heart, rooted deep down  
Now slowly I'm falling  
But I don't need saving  
You've already got me  
You've already got me  
This celestial glow is blinding

I'll dive in the sky, oh the water's alive  
I'll float down to soak in the stars  
Swim away from the night, I'm swallowed by light  
Suddenly love doesn't seem very far  
Take me there, take me there
