

## Treasure

Tori Kelly

I was not waiting for your love  
Before it was all on this shore  
Darling, I never really get  
This feeling in my chest

It's a new day to discover  
So many things to uncover  
Even when the tide is high  
Out here it's just you and I  
Perfect how we fit together  
Being around you is a pleasure  
Like the way gold lasts forever  
I feel like I found my treasure

When I first fell into those  
Deep pools in your eyes  
I thought I would be fine  
'Cause I never really get  
This feeling in my chest

It's a new day to discover  
So many things to uncover  
Even when the tide is high  
Out here it's just you and I  
Perfect how we fit together  
Being around you is a pleasure  
Like the way gold lasts forever  
I feel like I found my treasure

I wasn't even looking for you  
My skies were already blue  
Now you're what I hold on to  
These eyes are fixed on you  
And in love we're meant to play  
I could never turn away now

It's a new day to discover  
So many things to uncover  
Even when the tide is high  
Out here it's just you and I  
Perfect, now we fit together  
Being around you is a pleasure  
Like the way gold lasts forever  
I feel like I found my treasure
