

# Symptoms Of True Love

Tracie Spencer

Hey  
How did you make it  
Make me go out of my mind?  
Poisoned arrows  
Burning fever  
Strings in my heart.  
Now my pulse is racing  
Temperature is rising high

Poisoned arrows  
Burning forever  
Strings in my heart.

Symptoms of true love take my breath away

Make me shake

I cannot get enough of your kisses  
Babe  
Tender touch

The symptoms of true love.

I know what the cure is  
I know a thing to take away  
All the headache  
All the heartache  
All of my pain.  
Give me all your lovin  
Care for me all night and day

Do it quickly and I will be in recovery.

Symptoms of true love take my breath away

Put me on my knees night and day  
I'm ready for take-off

Come and fly with me  
Don't delay the symptoms of true love!
