

# I Wanna Feel That Way Again

Tracy Byrd

At the time, it seemed like the right thing  
Breakin' up and goin' separate ways  
But now I find, I can't keep from wishin'  
I was back with you in yesterday  
Laughin' and lovin' wild and free  
No one else but you and me

I wanna feel that way again  
I wanna touch you like I did back then  
I wanna hold you in my arms, let a candle burn till dawn  
Feel your breath upon my skin  
It was the best I've ever been  
I can't believe we let it end  
I wanna feel that way again

Holdin' hands, walkin' down a dirt road  
In the dark and knowin' everythin' was right  
We would dance, and talk about tomorrow  
Our lips would touch and set the night on fire  
Back then there was nothin' we couldn't do  
Believin' that dreams come true

I wanna feel that way again  
I wanna touch you like I did back then  
I wanna hold you in my arms, let a candle burn till dawn  
Feel your breath upon my skin  
It was the best I've ever been  
I can't believe we let it end  
I wanna feel that way again

It was the best I've ever been  
I can't believe we let it end  
I wanna feel that way again
