Between Us

Tracy Lawrence

Sometimes our loves an open door And we know its safe inside But we have slammed it shut before And locked our hearts outside But we get a handle on it When we let go of our pride

Sometimes we put words and walls between us Lose our heads and gamble with our hearts There've been trials and tears, doubts and fears Between us But when all things pass It's love that'll last between us

Love has taught us to forgive And time helps us forget Still as long as we both live We'll say some things we regret But love keeps a workin on us Aw cause we ain't perfect yet

There've been trials and tears Doubts and fears between us But when all things pass It's love that'll last between us
