

# Just You And Me

Tracy Lawrence

Baby take off your coat  
We ain't in no hurry  
I see the fear in your eyes  
But girl don't you worry  
I'll keep the candles lit all night  
So you'll know everything's all right  
We've got everything we need  
And it's just you and me

I've got the covers turned down  
Come lay here beside me  
Oh baby let down your hair  
And your doubts about me  
I'm gonna make you feel tonight  
Like you've never felt in your life  
We've got everything we need  
and it's just you and me

There ain't no one around  
And the only sound is your  
heart beating next to mine  
Cast your fears in the fire  
Give into your desire  
Put your faith into me  
'Cause I've got everything we need  
and it's just you and me

Oh baby let down your hair  
And your doubts about me
