

We Don't Love Here Anymore

Tracy Lawrence

Every night when I come home this old house
it's always dark
You don't wait up like you used to
like you did at the start
And I can feel the changes as
I'm walking through the door
We still live in the same house
but we don't love here anymore
We still share the same old bed but
now our dreams seem worlds apart
We don't touch the way we used to
and it's breaking my heart
We're turning into strangers ties
that bind are frayed and worn
We still live in the same house
but we don't love here anymore
And I would do anything for what we had before
We still live in the same house
but we don't love here anymore

Oh I would do anything for what we had before
We still live in the same house
we still live in the same house
We still live in the same old house
but we don't love here anymore
