

# Take Me

Trina

Playa, yeah, yeah  
Yeah, yeah, yeah, yeah  
Yeah-yeah, yeah

Take me place where I ain't gotta be sexy  
Just so I can be considered a lady  
Please tell me why the world is so shady, baby  
I wanna go to a world where I ain't gotta be a freak ho  
Just so I can be noticed by people  
Please tell me if you know  
Because I wanna go, wanna go, yeah, yeah

Why is it lately?  
These jealous hoes gotta hate me  
Niggas won't give me no space  
They suffocate me  
I try to be myself niggas won't let me  
They'd rather sweat me  
Ice, freeze, and bridget me  
But I ain't impressed with your hot car  
Nigga I ain't got the lock jaws  
I ain't fixin' to drop draw's  
These niggas chase me like a cop-cop  
In and out the Char' bottle  
They wanna ball with a hot star  
They offer me grands for one night stands  
Fuck that one night plan  
I'm looking for that one right man  
To save the day, wrap me in his arms  
Take me away, late plight till the break in the day  
Come on

Take me to a place where all my girls on top  
Take me to a place where all the Benzes drop top  
Take me to a place where I ain't gotta trick for grands  
Take me to a place where my friend won't fuck my man  
Take me to a place where it's women with no hoes  
Take me to a place where the thugs get early parole  
Take me to a place where we ball, buying cases  
Diamond faces, united with all races  
Take me to a place where ain't no chalk traces or court cases  
Or black faces on front pages  
Take me to a place where the haters don't hate  
Take me away, Lord knows I can't wait, come on

Every day I gotta let it go  
And spend the money on the one way ticket  
To a world where shit is better yo  
I be the same but a better ho  
And do a version of Nann with Kirk Franklin for the chedda yo  
They'll show my video on VH1, diva week  
Me, Whitney, then Aretha speak  
I be on top of the world and still be a freak  
Although I'm doing my thing  
I see I gotta eat cause where I'm from  
Life ain't sweet

Take me, take me baby  
Where I wanna go baby  
I don't wanna be a freak ho  
No more, more  
Take me, take me baby  
Where I wanna go baby  
I don't wanna be a freak ho  
No more, more
