

# Rain City

**Turin Brakes**

Opened my eyes had a dream last night that both my arms were broken

Evenin' time

Help me now or hold me down, I feel my world is tumblin'

Spiral down

Oh my love I can't let go

Somethings wrong I can't let go

Natures cruel she laughs at me

As I make my way through the century

As I slowly turn to house dust

Tumblin' down

The rain comes down like a victory

In sheets of shinin' memory

Over and over

Circlin' around

Over and over

Can't let go

Somethings wrong I can't let go

Natures cruel she laughs at me

Almost too much for my heart

When it rains

Oh tears my soul apart

When it rains it rains so slowly

In the city where I'm from
