## Twista

I'm callin' ya daddy (daddy)  
Can you be my daddy (daddy)  
I need a daddy (daddy)  
Won't you be my daddy (daddy)

Come and make it rain down on me  
Come and make it rain down on me

Now come and kick it with the Twista  
Black Caddy, Mack Daddy,  
With a hoe up in the back seat  
With the '97 pimp flow  
Gotta feelin' when you smokin'  
When I flip it to a track speed ?

Talkin' about a beautiful figure  
Astonishing as greek mythology  
Body be just like a girl in uh  
What's that movie? never mind  
Let me enter your atmosphere  
As you enter my world  
And lemme touch that booty

I can't believe that your momma that cold  
Her daughter got such an astonishing soul  
You need a modeling role  
Still a player know you got it  
When you climbin' from the bottom  
To the top of that pole  
Cause you can pop and control

Your fatty's so accurate  
When I'm smackin' it  
It's makin' me say  
"What I gotta do to get with that?"  
When it come to makin' it rain,  
I can get it wet  
When it come to cuttin' the monkey  
I can get it wet  
You gone see me to ya baby  
You need a better man  
Here come the politics,  
I'ma be your weatherman  
Cause every time I'm lookin' up  
And I see more ass  
I'ma constantly see  
Rain in the forecast

This-a-way that-a-way  
I'm flickin' 5,000 ones  
Or whatever you wanna call it  
It's a celebration  
You the champion  
Here's the fetti confetti  
Come on and get drunk  
With the money hauler?

You done been good,  
But you can do better  
I done been wet,  
But I can get wetter  
Come and make it rain down on me

But when I'm not for the feminine  
And everybody that perceive with the hatred  
I'ma teach them a lesson  
I take shots of adrenaline  
Cause that's the way I receive immunization  
Against the recession  
I got the muscle off my hustle and flow money  
An entrepreneur with ways to get more money  
So don't be trippin' whenever you see me throw money  
Haha it's just a little bit of show money  
But if you want me to get it wet another ways  
Then I'ma have to beat it up the first time I play with you girl  
Touch your ears and your neck and play with your pearls  
Then I reach up in your pants and play with you pearl?  
When I lay you down you ain't gotta be frontin' or fakin'  
On me baby cause I know it takes the right touch  
I ain't stoppin' til you wet up the covers  
Because I gotta keep on fuckin' til I see a lot of white stuff  
Now you got me excited I can't hold it  
I'm feelin' it coming I'm bout to let off an explosion  
Let it ride when I see you I'm ? and shakin'  
When I touch your body you catchin' convulsions  
That's when I know I'm doin' what I'm supposed to  
You chose me, I chose you.  
Don't think I can get it wet? I told you  
Come and let the Twist rain down on you

I'm callin ya daddy (daddy)  
Can you be my daddy (daddy)  
I need a daddy (daddy)  
Won't you be my daddy (daddy)
