

One In A Million

Unicorn

I, I come from so far away
And I, I'm searching my only way
I, I'm living my life alone
But tonight I'm ready for the storm
Doing what I want
Tell me if you give up 'cause I don't

They, they have so much breath to waste
In lies made of arrogance and in prates
And they together don't feel alone
But tonight they won't laugh, no more
Battle 's just begun
Tremble 'cause the damage is done

One in a million day
Into the higher state
It's time to fly and break the chains
In the endless space

We, we follow the destiny
Our creed, for them is a mystery
And we, tonight we are here to stay
In our eyes there's no trace of pain
now our glory rises
They say we are deuced, we say brave!

One in a million day
Into the higher state
It's time to fly and break the chains
In the endless space

I waited for today
Since long time faraway
In front of us they can't escape
Join your hands and pray!
