

YOLO

Union J

You only see the sun rise
When you stay up all night
(Hey, hey, hey)
You only open those eyes
When you know it feels right

So choose love
Be who you want
Just lose yourself
cus tonight was made for us

Let's come together
You only live once, remember
Let's come together
You only live once, remember
A little bit of time never killed no one
So give me that night I've been dreaming of
Let's come together
You only live once,
You only live once, remember

You only burn the roof down
When you let it all out
(Hey, hey, hey)
You know you're in a wild crowd
When your feet are off the ground

So choose love
Be who you want
Just lose yourself
cus tonight was made for us

Let's come together
You only live once, remember
Let's come together
You only live once, remember
A little bit of time never killed no one
So give me that night I've been dreaming of
Let's come together
You only live once,
You only live once, remember
(You only live once,
You only live once, remember)

Y O L O, you only live once, live once
Y O L O, you only live once
JJ does the melody with harmonies of the others
Y O L O, you only live once, live once
Y O L O, you only live once

Let's come together

Let's come together
You only live once, remember
Let's come together
You only live once, remember

Y O L O, you only live once, live once
Y O L O, you only live once
Y O L O, you only live once, live once

You only live once, remember
