

Summoning the Futura

Vader

I conjure thee, o ancestor of the gods! I summon thee, creature of darkness by the words of darkness! I summon thee, creature of hatred by the words of hatred! I summon thee, creature of the wastes, by the rites of waste! I summon thee, creature of pain, by the words of pain! I summon thee and call thee forth from thy abode in darkness! I evoke thee from thy resting place in the bowels of the Earth! May the dead rise!
