The Multiverse

An eternal mystery Has been discovered It is now reality Never say never I've been working hard Down in my basement I don't know where I am Where I've been sent

Now if I get it right I'm trapped in the other side

Esoteric questions Have been answered What really matters Is the anti-matter

Now am I lost in time? Or caught in the other side In parts or whole I'm in this hole Will I spend my life? Locked in the other side

The Multiverse

I've moved the time from space Based on action I've made only one mistake I tried it on

If I get it right I'm trapped in this other side In parts or whole I'm all alone Am I lost in time? Or caught in this other side It's in my head I might be dead Am I losing my mind? Locked in this other side I am losing my mind Forever, this other side

The Multiverse
