My Days Are Darker Than Your Nights

Wanda Jackson

You never knew how much I loved you I tried but you just couldn 't see the light You're out there somewhere with her now I guess it's best for y ou But my days are darker than your nights My days are darker than your nights I wait for mornings that ne ver arise There's just no end as long as I'm alive my days are darker tha n your nights

You'll never know just what I'm going through I hope you'll never need someone like I need you You're happy now you've got just what you want But don't think that I'll forget you cause I won't My days are darker than your nights...
