

Hey Willie

Waylon Jennings

Hey Willie let's pack up and catch us a slow train
And go back to Phoenix to a far brighter day
Where stars were for shining in the Arizona sky
And music meant more than fortune or fame

Willie, we wandered from border to border
Singing our stories and living our songs
Seems the farther we go, all that grows closer
Is a mind full of memories we made years ago

Hey Willie let's pack up and catch us a slow train
And go back to Phoenix to a far brighter day
Where stars were for shining in the Arizona sky
And music meant more than fortune or fame

We rolled through the towns like a bus load of gypsies
Motels and hotels ain't no place to stay
The favors we're taking, the money we're making
Won't pay for the living, we're giving away

Hey Willie let's pack up and catch us a slow train
And go back to Phoenix to a far brighter day
Where stars were for shining in the Arizona sky
And music meant more than fortune or fame
