

# If You See Me Getting Smaller

Waylon Jennings

Willie we've been constant companion  
You know the light and shade  
We have spent a million dollars  
Find out what we made.

We have made the maidens marvel  
The things we do and say  
Down, down and out brother  
Up, up in the way.

If you see me gettin' smaller  
I'm leavin' don't be free there  
Just got to get away from here  
If you see me gettin' smaller  
don't worry and no hurry  
I've got the right to disappear.

God bless old Philadelphia  
They were standing in the rain  
Out in front of a main yard  
Wet and lonely train.

Who knows who they came to see  
A mad man full of beer  
A four piece band and a charter bus  
May further line career.

If you see me gettin' smaller  
I'm leavin' don't be free there  
Just got to get away from here  
If you see me gettin' smaller  
don't worry and no hurry  
I've got the right to disappear...
