John's Back in Town

Waylon Jennings

John does some singin' they call him a star He plays with a hillbilly band He goes lots of places picks his guitar Old John ain't a home lovin' man.

John's got a woman he calls her his queen He buys her them city made clothes And she's 'bout the sweetest that I've ever seen There is someting that John never knows.

When John is out croonin' I'm out with his queen Passin' his money around
But if you look for me and I can't be se
You'll know that John's back in town.

When John's out a tourin' I wear his best suits Smoke up his old big cigars I lie with his woman, wear out his boots Shauffer his limousine cars.

When John's making money he keeps on the go So if you should hear he's around Buy one of his records or go see his show Help me keep old John out of town.

When John is out croonin' I'm out with his queen Passin' his money around
But if you look for me and I can't be seen
You can figure that John's back in town...
