

## She Loves Me (She Don't Love You)

Waylon Jennings

Well, now I can see  
You're dancin' every dance with her  
And it seems to me  
You're dancin' much too close to her.

When you sat at our table  
You sat next to her  
But I know that it's true  
She loves me, she don't love you.

Well, let me tell you friend I'm wise to your lies  
Even tellin' me that I'm the guy for her  
And if a little thing you do and say  
Has given you away you're in love with her.

Well, just one more dance with her  
And friend you're gonna see  
Oh, what it's like to hit the floor  
And do a little dance with me.

Here's your coat there's the door  
I think you better leave  
'Cause I just know that it's true  
She loves me, she don't love you.

Well let me tell you friend I'm wise to your lies  
Even tellin' me that I'm the guy for her  
And if a little thing you do and say  
Has given you away you're in love with her...
