

## Where Does Love Go

Waylon Jennings

There's a photograph in a gold frame on the mantle  
I've never seen two people more in love  
What a stark contrast to the picture of us standing  
On the edge of giving in and giving up

Something so real don't just disappear  
If it goes away it must go somewhere  
Till we find the answer, we've got to hold on  
Where does love go when it's gone?  
Where does love go when it's gone?

Life's a long highway with a lot of private places  
There's times that we've both thought of finding one  
But there ain't no way we're giving up forever  
It's like saying there won't be a rising sun

Something so real don't just disappear  
If it goes away it must go somewhere  
Till we find the answer we've got to hold on  
Where does love go when it's gone?  
Where does love go when it's gone?
