

Wrong

Waylon Jennings

It was a picture perfect wedding
We had the whole world at our feet
Everyone thought we were
Heading down a lovers easy street

We'd have a house out in the country
A picket fence, the whole nine yards
They said our love would last forever
It was written in the stars

Wrong
I should have known it all along
When the future looks too bright
Can't be anything but right
Wrong

I was all but devastated
When she told me we were through
In a while the heartache faded
And I found somebody new

I swore that this time would be different
I had it all figured out
I wouldn't make the same mistakes
I knew what love was all about

Wrong
I should have known it all along
When the future looks too bright
Can't be anything but right
Wrong

Wrong
Everything was going strong
The sky was always blue
Thought my dreams had all come true
Wrong
Wrong.
