

## Marble Tulip Juicy Tree

Ween

I don't know who you are  
Don't know who you want to be  
When I carbonate the test tube  
Then you won't see me

I got a twin cab diesel combo  
It takes me where I want to go  
And all the nuphies are happy  
They know of a fungus that grow

So when you see Hoecke's mind screw  
Don't come running to me  
'Cause ... will scream and set aflame  
Marble tulip juicy tree

Marble tulip juicy tree  
It's where I want to be  
When I gnaw on the tulip  
It'll wish that it was me

Every morning I put my shoes on  
And I think about she  
Who controls the four seasons  
Inhaling kitties in the sea

It's like a noodle in a salad  
Little birdy wants to be set free  
I drill the corpse lobe with my mommy  
Marble tulip juicy tree

So this song's about the loving things  
That you are to me  
Just stay away from my adenoids  
And marble tulip juicy tree

Marble tulip juicy tree  
It's where I want to be  
When I gnaw on the tulip  
It'll wish that it was me
