Someday (I'm Coming Back)

Whitney Houston

Chorus:

Someday I'm coming back, and it won't be long Before you call me and tell me to come home Someday I'm coming back, and it won't be long Before I'm home, home and in your arms

What did I do my darling ? That made you send me running

Told you to cast me down and throw me out What can I tell you honey, If I don't know what I've done

All I can hope is that you ask me to come back home

Chorus

Even in stormy weather, we always stick together You always kept me near, we're so sincere So why so sudden the change of heart Why do I feel like I've done wrong?
When all that I want is that you ask me to come back home

Chorus

Someday, someway (I never wanted anyone so much) Someday, someway

What did I do my darling ? That made you send me running

Told you to cast me down and throw me out What can I tell you honey, If I don't know what I've done

All I can hope is that you ask me to come back home

So why so sudden the change of heart Why do I feel like I've done wrong ? When all that I want is that you ask me to come back home

Chorus to fade
