Let me slide in your direction Let me poke you full of holes Let me mimic your inflections Let me strike up all your poses Let me curse you with my sickness Let me cure you with my love Add my randomness and chaos to the things that you're sure of Who do I think that I'm foolin' With my weed and wine and lagavulin It'll never come out right When I get with you tonight And I wonder what the hell it is I'm doing Let me show you what I'm good for Let me find out what you're not Let me piece it all together From the things that I forgot Let me hold on to this picture that you cut yourself out of Let me paste a perfect copy On the the track marks of our love Maybe I'll be alright Who do I think that I'm foolin' With my weed and wine and lagavulin It'll never come out right When I get with you tonight And I wonder what the hell it is I'm doing Please snap out of it Just snap out of it Please step out of it Just walk away from it Please snap out of it Just snap out of it Please walk away You're not fooling anyone Maybe I'll be okay But in an hour or so I won't know what to say Choking on the details And there's screaming everywhere 'Til the blown out voices whisper Maybe you're not even there Oh maybe I'll be okay, But in an hour or so I won't know what to say Who do I think that I'm foolin' With my weed and wine and lagavulin It'll never come out right When I get with you tonight

And I wonder what the hell it is I'm doing

Who do I think that I'm foolin'
And I wonder what the hell it is I'm doing

Who do I think that I'm foolin'
And I wonder what the hell it is I'm doing
