

# All In The Name Of Love

Willie Nelson

Big Jim Butcher was the king of the hill  
He ran his business with a deadly will  
His foreman, John, had a pretty wife  
The way she looked cut Jim like a knife

John was weak and his wife was, too  
Her name was Kate, and she fell in, too  
She let Big Jim do what he had to do  
And John stood by and his life was thru

It was all in the name of love  
All in the name of love  
You can't change the stars above  
All in the name of love

John took a bottle one drink at a time  
Stared off in space as he lost his mind  
Knew who it was on the telephone  
He saw it all and he felt so alone

One dark morning, John stood up like a man  
He took his shotgun with a steady hand  
He went to the motel - broke the door in  
He left two holes where two hearts had been

It was all in the name of love  
All in the name of love  
You can't change the stars above  
All in the name of love

He called the preacher and he called the law  
And when they got there it was pretty raw  
He said "Boys, you better come and take me away  
I've done all I can do in the name of love today"

(3x):

It was all in the name of love  
All in the name of love  
You can't change the stars above  
All in the name of love
