

# Worry B Gone

Willie Nelson

Give me just one more sip of that Worry B Gone

I'm planning on feelin' much better before too long  
Got a world of trouble, that I need to forget  
I'm on my way, but I ain't there yet

Give me just one more sip of that Worry B Gone

Everywhere I look, trouble is all I see  
Can't listen to the radio, I can't stand TV  
I've got trouble with the air, trouble with the water  
People ain't treating one and other like the other

Give me just one more sip of that Worry B Gone

Don't wanna hear no preacher preachin'  
No more politician bitchin'  
All those songs about love gone wrong,

Got me wonderin' where my baby's gone

Well I can't suffer for wastin' my time  
Don't give me no advise that rime

Just give just one more puff of that Worry B Gone

Don't wanna hear no preacher preachin'  
No more politician bitchin'  
All those songs about love gone wrong,  
Got me wonderin' where my baby's gone

Give me just one more hit of that Worry B Gone  
Yeah, give me just one more sip of that Worry B Gone  
Give me just one more puff of that Worry B Gone'
