

## Focus

10 Years

Digging deeper in my mind, can't get you out of my head.  
There's no way to describe, just how you make me feel.  
I don't know is it love, I have lost control  
Even when I'm gone, I can't get away.

I can't focus, when I'm near you.  
Do you notice, me at all?  
I can't focus, when I hear you.  
Do you notice, that I can't focus?

Like the moth fly's to the light, catch it at first sight  
I can't deny, I'm taken by the beauty in your eye's  
I don't know is it love, I have lost control.  
Even when I'm gone, I can't get away.

I can't focus, when I'm near you.  
Do you notice, me at all?  
I can't focus, when I hear you.  
Do you notice, that I can't focus?

I can't focus, when I'm near you.  
Do you notice, me at all?  
I can't focus, when I hear you.  
Do you notice?  
Do you notice?  
I can't focus, when I'm near you.  
Do you notice, me at all?  
I can't focus, when I hear you.  
Do you notice, that I can't focus?
