

Everything You Wanted to Know About!!!

10cc

I took my fantasy to Deborah
You know she's always been a friendly girl
You'll see her cruise the Picadilly streets
And she winks at every man she meets
I've been a fan of hers for quite a time
I tried to pull her with a bumner line
I asked her would she like a cigarette
And she said let's go to bed
('cause that's what you want)

And so I went
And I was shocked
I was so green
Ground I wish you'd swallow me up
She had to laugh
I nearly died
Some Superstud!
There's more to this than meets the eye

I hurried back to read the manual through
You know the one that tells you what to do
But all I needed was the confidence
To start and break the ice
Experience would be a boon for life
And Debbie smiled as I came strolling by
I said I'd like to have a second shot
And I'd give it all I've got

And with a twinkle in her eye
She led me by the hand
Through a door to a room
Above a Soho restaurant
And she smiled and told me
Not to look so serious
But by the time she'd talked me down
I was delerious, I was away

I had to window shop in Amsterdam
But down the Troubador in Hollywood
I found a lover who was bold enough
To live my fantasy (this isn't a dream)

I was away
Up in the blue
Emmanuelle
How you gonna make it in a jet
The need to shock
Was coming through
Where would it end
You'll never know
