

## My Mistakes

112

R: If I could erase, everyone of my mistakes  
Tell me would it make you want to come over  
And work this out with me  
And I'd do whatever it takes just meet me half way  
All I want is for you to come over and work this out (work this out) with me.

What's wrong with me, why can't I do right  
You promised me you'd give me your life  
If I could be more than just a typical  
Guy to lie to your face  
How could I do, the things that I said I wouldn't do  
Give them the same, I give to you  
Am I just a pitiful Franken as your worth- (Not sure what it says there lol.)

You told me that before  
Promised that I wouldn't go there no more  
You gave me all of you, but what did I go do  
And every time I had a chance to get into another niggas woman's pants  
I would follow through, not thinking of me and you

As bad as I want you right here,  
Empathize with the way that you feel,  
Took away the things, that you called your kids (I'm so sorry baby I'm needing you)  
If you can find the feeling you had from the start you know we should never be apart  
I'm asking can you please listen to me

Well you told me that before  
Promised that I wouldn't go there no more  
You gave me all of you, but what did I go do  
And every time I had a chance to get into another niggas woman's pants  
I would follow through, not thinking of me and you

Well I want you to come over and talk to me  
I know I don't deserve to be apart of anyone tryin' to give me their heart (but I'm in need)  
Baby please, come on over and talk to me  
I see you lookin' like I've seen you look before

'Cause your the only one to show me real love(I'm in need)
