

You always said you loved me  
Though my mind right now's not sure  
You always were there for me though my heart never feels secure  
Why can't you take the first step to let me know you really care  
Cuz now I'm feeling driven into a love that's not right there

R: Why do you make me feel this way  
Feeling betrayed feeling pushed away  
Why do you make me feel so bad  
Feeling so hurt feeling so sad  
What have I done to make you turn  
Feeling so lost I'm feeling so burned  
If you really cared you'd make a change  
So I can feel the pleasures and not the pain

After all I've said  
You still have it set in your head  
That you don't really care about me  
Why can't you seem to believe  
That I'm the only one for you  
I gave all my love to you oooh  
And after all I've done for you  
You never seemed to love me the way that I love you

R:

Baby can you feel me  
It hurts so bad  
It hurts so bad  
I just can't take it no more baby  
Girl make a change  
So I can feel the pleasures and not the pain

R:
