

# I'm With You

12 Stones

Close your eyes, my lonely friend  
I sympathize but look deep within  
Think of your life where it begins  
It's not the end  
It's not the end

Take a step, don't look down  
You can turn it all around  
Would it change things if you knew  
I'm with you  
I'm with you

I know it hurts, you're broken inside  
But no kind of pain's worth more than a life  
Take the first step and breathe in again  
It's not the end  
It's not the end

Take a step, don't look down  
You can turn it all around  
Would it change things if you knew  
I'm with you  
I'm with you

Take a step, don't look down  
You can turn it all around  
Would it change things if you knew  
I'm with you  
I'm with you

Take a step, don't look down  
You can turn it all around  
Would it change things if you knew  
I'm with you  
I'm with you

I'm with you  
Would it change things if you knew  
I'm with you
