

# It Was You

12 Stones

It was You  
That showed me who I am  
And taught me how to stand  
For what I know is real

I was sick of all the pain  
Tired of all the shame that I felt  
But You showed me a way  
To never have a doubt  
And always to believe in myself  
Now I see

R: It was You  
That showed me who I am  
And taught me how to stand  
For what I know is real  
Now I'm breathin for the first time  
And I'm leavin, all this behind  
I've become, what I am because of You  
It was You

I'm so sorry 'bout the waves  
But I can't take away my past  
But You love me anyway  
And now I wanna do  
Everything for You that I can  
Even though it won't erase  
The foolish things that I've done  
Things that blinded me  
But now I see

R: ...  
And I'll stand for what I know is real

So how can I make this up to You  
I'll fight and I'll push and I'll strive  
Now that I'm living my life for You  
I'll fight and I'll push and I'll strive  
Can't you see

R: +  
I can see the writing on the wall  
As time begins to crawl away from me  
And I've become what I am because of You  
It was You
