

Lifeless

12 Stones

Desperate and waiting, frozen to the core, numb
To this feeling, needing something more all I
Keep thinking is where I need to be, all I can hope
For is someone to take me away

Before you go you promise me something, I need
To know will you leave me lifeless leaving me
Lifeless

Will I bow down to this life that I live, will I find
Freedom or lose it all again all i keep thinking is
Where I need to be, all I can hope for is someone
To take me away

Before you go you promise me something, I need
To know will you leave me lifeless time moves so
Slow, I'm waiting for something, waiting for
Something again

Will I fall away from you, feelings that I never
Knew and I hope that I never fall away
