## Lifeless

## 12 Stones

Desperate and waiting, frozen to the core, numb To this feeling, needing something more all I Keep thinking is where I need to be, all I can hope For is someone to take me away

Before you go you promise me something, I need To know will you leave me lifeless leaving me Lifeless

Will I bow down to this life that I live, will I find Freedom or lose it all again all i keep thinking is Where I need to be, all I can hope for is someone To take me away

Before you go you promise me something, I need To know will you leave me lifeless time moves so Slow, I'm waiting for something, waiting for Something again

Will I fall away from you, feelings that I never Knew and I hope that I never fall away
