

## Open Your Eyes

12 Stones

When I look into your eyes  
I see a lot of hate  
Pushing me away  
You're haunted by a past  
A past that brings you down  
So you throw it all away  
Again

Just try to find a place deep within your soul  
And don't deny the child living deep inside  
Open your eyes and find  
This life's better than you know  
It's in your hands now  
Just open up your eyes

Deep inside of your mind  
You're forced to believe  
That nothing's gonna change  
So I take you by the hand  
And I lead you to a place  
A place of happiness  
Like this

Just try to find a place deep within your soul  
And don't deny the child living deep inside  
Open your eyes and find  
This life's better than you know  
It's in your hands now  
Just open up your eyes

Just try to find a place deep within your soul  
And don't deny the child living deep inside  
Open your eyes and find  
This life's better than you know  
It's in your hands now  
Just open up your eyes

Just try to find a place deep within your soul  
And don't deny the child living deep inside  
Open your eyes and find  
This life's better than you know  
It's in your hands now  
Just open up your eyes
